JOURNAL

OFFICE OF LEGISLATIVE COUNSEL

Friday - 1 April 1960

1. [] Talked with Mr. Sherlock, in the office of the Secretary of Defense, regarding the four Industrial Security proposals now pending in the Senate Judiciary Internal Security Subcommittee - S. 2416, S. 2314, H. R. 8121 and S. 2392. Mr. Sherlock said that Defense is not taking action on any of these bills in view of the President's action in signing the Executive Order on this subject. The policy people are devoting all of their time to working out their procedures for compliance with this order. Mr. Sherlock feels certain that before any action is taken by the Senate committee the Armed Services will be asked to testify on these measures.

6. [redacted] Picked up from John Conway and George Murphy, of the Joint Atomic Energy Committee staff, the corrected copy of the Director's appearance before that committee on 28 January. Conway noted with some concern that we had corrected a portion of Chairman McCone's remarks. These changes were not made on the committee's master copy. Conway also indicated that in the future the committee will ask that we not only correct the remarks of Agency representatives in the transcripts but that we also give the committee a separate list indicating the changes made. This procedure is being adopted by the committee for appearances of all witnesses and is not a special procedure for CIA alone.

7. [redacted] Returned the copy of the transcript of the executive session testimony of General Power on 22 March.

SIGNED
GEORGE L. CARY, JR.
Assistant Legislative Counsel
